

# LoRa workshop conclusion

# What have you gained

- Basic knowledge about LoRa and SIGFOX solutions
- Simple AT command based application using LoRa
- More complex sensor based application using LoRa
- Complete solution from device to cloud using LoRa

# Continuous improvement

- Workshop which you have seen is based on I-CUBE-LRWAN v1.1.1
- ST continuously works to improve solutions. Currently there is a new version of **I-CUBE-LRWAN v1.1.4** available.
- New version of slides (temperature sensor demo) based on **v1.1.4** implementation is attached.

# May we ask you for your feedback, please?

- We would like to ask you for your feedback on this session.
- The survey is anonymous and it is available here:
